Name: \_\_\_\_\_ Signature: \_\_\_\_\_

Provider Number: \_\_\_\_\_

### The Referral Process

Patients must be referred by either their general practitioner or specialist. Referral forms can be either faxed (1300 88 24 76) or emailed through to the surgery.

Patients will be contacted by practice staff to confirm their suitability for the programme and to answer any questions the patient might have. An appointment will then be made for the patient to have their colonoscopy at Kareena Private Hospital.

Patients will be sent a colonoscopy information sheet and pre-procedure instructions by mail.

Patients will be admitted to Day Procedure department of the hospital where Dr Kariappa or Dr Jamnagerwalla will see them. Following this consultation, their colonoscopy will be performed.

Results of the colonoscopy will be discussed with the patient on the day of procedure, with a report sent to the referring doctor. The patient will be provided with follow-up appointments with either Dr Kariappa or Dr Jamnagerwalla as required.
